A flexible, comprehensive assessment to help you diagnose speech and language disorders.

The new **CELF-5^{A&NZ}** is a comprehensive battery of tests that provides you with a streamlined, flexible approach to language assessment. It now offers a more robust assessment of pragmatics using observations and interactive activities. Also included are new written language tests, updated norms, and a scoring/reporting platform delivered on **Q-global**. Available in both traditional and digital editions via **Q-global** or **Q-interactive** (iPads), **CELF-5^{A&NZ}** provides highly accurate diagnostic information with current Australian and New Zealand normative data, reflecting today's diverse population.

Uses & Applications

Use **CELF-5^{A&NZ}** as part of a comprehensive assessment to:

- Determine a student's need for classroom language adaptations, enhancements, or curriculum accommodations using the Observational Rating Scales (ORS)
- Qualify students for National Disability Insurance Scheme (NDIS) funding
- Develop Individual Education Plans (IEPs)
- Evaluate current level of language performance

Content & Administration

CELF-5^{A&NZ} provides a battery of 16 stand-alone tests and two observational measures. Ten to eleven of the 16 tests are administered, depending on the student's age. The new edition takes into account updated normative data based on the 2011 Australian and 2013 New Zealand censuses, as well as modifications based on research and clinician feedback.

Features & Benefits

- **New!** Pragmatics Profile now includes standard scores, percentile ranks, growth scale values, and age equivalents.
