|  | Total <br> Observations <br> Checked | Criterion |  |
| :---: | :---: | :---: | :---: |
| Pragmatics Activities Checklist | 7 | Less than or <br> equal to 9 | Meets |

## Behavioural Observations

Response Time: Immediate
Need for Repetitions of Stimuli: Few repetitions
Attention During Test Taking: Maintained intermittently
Attitude Towards Test Taking: Variable/neutral
Social Language: Register and Quantity: Inappropriate/off topic/verbose

## NARRATIVE REPORT

## Core Language Score

Timothy was administered four tests of the Clinical Evaluation of Language Fundamentals ${ }^{\circledR}$ Australian and New Zealand Standardised Fifth Edition (CELF ${ }^{\oplus}-5^{\text {A\&NZ }}$ ) from which his Core Language Score was derived. The Core Language Score is a measure of general language ability and provides an easy and reliable way to quantify Timothy's overall language performance. The Core Language Score has a mean of 100 and a standard deviation of 15. A score of 100 on this scale represents the performance of the typical student of a given age.

For Timothy's Core Language Score, the following tests were administered:

```
Word Classes
Formulated Sentences
Recalling Sentences
Semantic Relationships
```

Timothy received a Core Language Score of 67 (confidence interval $=60$ to 74 , percentile rank $=1$ ). This places Timothy in the very low to severe range of language functioning.

## Receptive Language Index

The Receptive Language Index is a measure of Timothy's performance on three tests designed to best probe receptive aspects of language including comprehension and listening. The Receptive Language Index has a mean of 100 and a standard deviation of 15 . A score of 100 on this scale represents the performance of the typical student of a given age.

For Timothy's Receptive Language Index score, the following tests were administered:

Word Classes<br>Following Directions<br>Semantic Relationships

Timothy received a Receptive Language Index score of 65 (confidence interval $=58$ to 72 , percentile rank $=1$ ). This places Timothy in the very low to severe range of language functioning.

## Expressive Language Index

The Expressive Language Index is a measure of Timothy's performance on three tests that probe expressive aspects of language including oral language expression. The Expressive Language Index has a mean of 100 and a standard deviation of 15. A score of 100 on this scale represents the performance of the typical student of a given age.

For Timothy's Expressive Language Index score, the following tests were administered:

## Formulated Sentences <br> Recalling Sentences <br> Sentence Assembly

Timothy received an Expressive Language Index score of 85 (confidence interval $=78$ to 92 , percentile rank $=16$ ). This places Timothy in the borderline/marginal/at-risk range of language functioning.

## Language Content Index

The Language Content Index is a measure of Timothy's performance on three tests designed to probe vocabulary and word knowledge. The Language Content Index score has a mean of 100 and a standard deviation of 15 . A score of 100 on this scale represents the performance of the typical student of a given age.

For Timothy's Language Content Index score, the following tests were administered:

```
Word Classes
Understanding Spoken Paragraphs
Word Definitions
```

Timothy received a Language Content Index score of 84 (confidence interval $=76$ to 92 , percentile rank $=14$ ). This places Timothy in the borderline/marginal/at-risk range of language functioning.

## Language Memory Index

The Language Memory Index is a measure of Timothy's performance on three tests designed to probe memory dependent language tasks. The Language Memory Index score has a mean of 100 and a standard deviation of 15 . A score of 100 on this scale represents the performance of the typical student of a given age.

For Timothy's Language Memory Index score, the following tests were administered:

## Following Directions

Formulated Sentences
Recalling Sentences
Timothy received a Language Memory Index score of 70 (confidence interval $=63$ to 77, percentile rank $=2$ ). This places Timothy in the very low to severe range of language functioning.

## Tests

## Word Classes

The Word Classes test is used to evaluate the student's ability to understand relationships between words based on meaning features, function, or place or time of occurrence. The student chooses the two words (i.e., pictures or presented orally) that best represent the desired relationship. This test has a mean of 10 and the standard deviation is 3 .

Timothy received a scaled score of 1 (confidence interval $=1$ to 3 , percentile rank $=0.1$ ) on the Word Classes test.

## Following Directions

The Following Directions test is used to evaluate the student's ability to (a) interpret spoken directions of increasing length and complexity, (b) follow the order of presented objects with varying characteristics such as colour, size, or location, and (c) identify several pictured objects that were mentioned. The student identifies the objects in response to oral directions. This test has a mean of 10 and a standard deviation of 3 .

Timothy received a scaled score of 4 (confidence interval $=2$ to 6 , percentile rank $=2$ ) on the Following Directions test.

## Formulated Sentences

The Formulated Sentences test is used to evaluate the ability to formulate simple, compound, and complex sentences when given grammatical (semantic and syntactic) constraints. The student is asked to formulate a sentence, using target word(s) while using an illustration as a reference. This test has a mean of 10 and the standard deviation is 3 .

Timothy received a scaled score of 5 (confidence interval $=3$ to 7 , percentile rank $=5$ ) on the Formulated Sentences test.

## Recalling Sentences

The Recalling Sentences test is used to evaluate the student's ability to recall and reproduce sentences of varying length and syntactic complexity. The student imitates sentences presented by the examiner. The mean for the test is 10 and the standard deviation is 3 .

Timothy received a scaled score of 5 (confidence interval $=4$ to 6 , percentile rank $=5$ ) on the Recalling Sentences test.

## Understanding Spoken Paragraphs

The Understanding Spoken Paragraphs test is used to evaluate the student's ability to (a) sustain attention and focus while listening to spoken paragraphs, (b) create meaning from oral narratives and text, (c) answer questions about the content of the information given, and (d) use critical thinking strategies for interpreting beyond the given information. The student answers questions about a paragraph presented orally. The questions probe the student's understanding of the paragraph's main idea, memory for facts and details, recall of event sequences, and ability to make inferences and predictions. This test has a mean of 10 and a standard deviation of 3 .

Timothy received a scaled score of 9 (confidence interval $=7$ to 11 , percentile rank $=37$ ) on the Understanding Spoken Paragraphs test.

## Word Definitions

The Word Definitions test is used to evaluate the student's ability to define words by describing their meaning features, and referring to their class relationships and shared meanings. The student is orally presented a word, followed by an introductory sentence that includes the word. The student is then asked to define the word. The mean for this test is 10 and the standard deviation is 3 .

Timothy received a scaled score of 12 (confidence interval $=10$ to 14 , percentile rank $=75$ ) on the Word Definitions test.

## Sentence Assembly

The Sentence Assembly test is used to evaluate the student's ability to assemble syntactic structures. The student produces two grammatically correct sentences from visually and auditorially presented words or phrases. This test has a mean of 10 and the standard deviation is 3 .

Timothy received a scaled score of 13 (confidence interval $=12$ to 14 , percentile rank $=84$ ) on the Sentence Assembly test.

## Semantic Relationships

The Semantic Relationships test is used to evaluate the student's ability to interpret sentences that (a) make comparisons, (b) identify locations or directions, (c) specify time relationships, (d) include serial order, or (e) are expressed in passive voice. After listening to a sentence, the student selects the two correct choices from four visually presented options. The mean for this test is 10 and the standard deviation is 3 .

Timothy received a scaled score of 6 (confidence interval $=4$ to 8 , percentile rank $=9$ ) on the Semantic Relationships test.

## Pragmatics Profile

The Pragmatics Profile is a checklist used to gain information about the student's verbal and nonverbal pragmatic skills that may influence social and academic communication. The examiner completes the checklist with input from parents/caregivers, teachers, and other informants who provide information to evaluate verbal and nonverbal contextual communication. The mean for the Pragmatics Profile is 10 and the standard deviation is 3 .

Timothy received a scaled score of 3 (confidence interval $=2$ to 4 , percentile rank $=1$ ) on the Pragmatics Profile checklist.

## Supplementary Tests

## Reading Comprehension

The Reading Comprehension test is supplementary test. It is used to evaluate the student's ability to read paragraphs and answer questions presented orally. The questions probe for the student's understanding of the main idea, memory for facts and details, recall of event sequences, and ability to make inferences and predictions. The mean for the Reading Comprehension test is 10 and the standard deviation is 3 .

Timothy received a scaled score of 7 (confidence interval $=4$ to 10 , percentile rank $=16$ ) on the Reading Comprehension test.

## Structured Writing

The Structured Writing test is a supplementary test. It is used to evaluate the student's ability to use situational information (i.e., a story title, an introductory sentence, and an incomplete sentence) to create a short narrative. The mean for the Structured Writing test is 10 and the standard deviation is 3 .

Timothy received a scaled score of 8 (confidence interval $=6$ to 10 , percentile rank $=25$ ) on the Structured Writing test.

## Pragmatic Activities Checklist (PAC)

The Pragmatic Activities Checklist (PAC) is a supplementary, criterion-referenced measure. The PAC is used to identify the student's verbal and nonverbal behaviours that may influence social and academic communications. The examiner engages the student in conversation during selected activities (e.g., making a paper aeroplane, having a snack) and observes the student's functional communications skills during the interactions. The examiner completes the Checklist after the activities are completed.

Timothy received a total score of 7 on the Pragmatics Activities Checklist.
Timothy's score meets the criterion score for his age.

## ITEM ANALYSIS

## Word Classes

| Category | Correct Items | Incorrect Items | Items Not Administered |
| :---: | :---: | :---: | :---: |
| Semantic Class | $1,2,3,4,6,8,9,10$ | 5, 7, 11, 12, 13 | $\begin{aligned} & \text { 16, 19, 20, 21, 23, } 35 \text {, } \\ & 38 \end{aligned}$ |
| Location |  | 14 | 15 |
| Composition |  |  | 17, 18 |
| Synonym |  |  | $\begin{aligned} & \mathbf{1 6}, 25,26,27,28,30, \\ & 32,34,36,37,39,40 \end{aligned}$ |
| Object Function |  | 11 | 22 |
| Word Opposites |  |  | 24, 29, 31, 33 |
| Bold items appear in more than one category. |  |  |  |

## Following Directions

| Command | Correct Items | Incorrect Items | Items Not Administered |
| :---: | :---: | :---: | :---: |

## PRAGMATICS ACTIVITIES CHECKLIST SUMMARY

## NONVERBAL: Gaze, Gesture, Expression, and Body Language

The Student
3. did not look at object/person named by speaker
4. did not coordinate gaze with speaker's gaze and ongoing talk
7. did not point to distant object/person when appropriate

## VERBAL: Manner of Communication

## The Student

12. said things that didn't seem to relate to topic or make sense logically
13. did not understand literal meanings

## VERBAL: Relevance of Communication

The Student
20. repeated things that listeners were already aware of
21. asked the same questions repeatedly

## OBSERVATIONAL RATING SCALE

## Listening

T-Teacher, P-Parent, S-Student

|  | Never or Almost Never | Sometimes | Often | Always or Almost Always |
| :---: | :---: | :---: | :---: | :---: |
| 1. Has trouble paying attention. |  | P1 |  |  |
| 2. Has trouble following spoken directions. |  | P1 |  |  |
| 3. Has trouble remembering things people say. |  | P1 |  |  |
| 4. Has trouble understanding what people are saying. |  |  | P1 |  |
| 5. Has to ask people to repeat what they have said. |  |  | P1 |  |
| 6. Has trouble understanding the meanings of words. |  |  | P1 |  |
| 7. Has trouble understanding new ideas. |  | P1 |  |  |
| 8. Has trouble looking at people when talking or listening. |  | P1 |  |  |
| 9. Has trouble understanding facial expressions, gestures, or body language. |  | P1 |  |  |

## Speaking
